MUHAMMED NIYAD

FULL STACK WEB-DEVELOPER | PORTFOLIO

ABOUT ME

I am a passionate and detail-oriented full-stack web developer with a solid foundation in both front-end and back-end technologies. Currently pursuing a BCA degree at Calicut University, I specialize in building dynamic, user-focused, and scalable web applications. Proficient in technologies like JavaScript, Node.js, Express.js, PostgreSQL, and MongoDB, I also bring hands-on experience with RESTful APIs and the MVC architecture. I'm continuously learning and building projects that reflect my dedication to clean code, performance, and user experience. My goal is to contribute to impactful products while growing as a developer through real-world challenges.

TECH STACK

FRONT-END:

- HTML5
- CSS3
- JavaScript
- Sass
- Bootstrap
- EJS templating
- React js (learning)

BACK-END:

- Node.js
- Express.js
- RESTful API
- error handling
- environment variables
- MVC architecture

DEVELOPMENT TOOLS:

- version control (git)
- VS Code,
- dotenv
- Nodemon
- Figma(Basic)
- Cloud Deployment Platforms

PROGRAMMING LANGUAGE:

- javaScript
- C
- C++
- Python

SOFT SKILLS:

- Time management
- Team collaboration
- Attention to detail
- Logical thinking
- Problem-solving

Databases:

- PostgreSQL
- MongoDB(mongoose)
- CRUD operation

CERTIFICATIONS AND AWARDS

Front-End Web Development Certification
GREAT LEARNING (2024)-View Certificate

EDUCATION

Bachelor of Computer Application   **[Expected Graduation : May 2026]**

University of Calicut │ 2023 – Present

- Currently in final year, gaining expertise in web development, programming, and database management

- Developing strong problem-solving and analytical skills through coursework in C, C++, Python, and software development.

Higher Secondary │ Computer Science   **2021 - 2023**

PALORA HSS ULLIYERI

- Studied fundamentals of programming, data structures, and computer applications.

- Built a strong foundation in logic, problem-solving, and computational thinking

PROJECTS & EXPERIENCE

BookNesto – Live: [booknesto.onrender.com]   **Apr 2025**

- A full-stack book listing website with CRUD functionality, file uploads, and author-book relationships using MongoDB and Express.js. Includes search, filtering, and dynamic views with EJS.

To-Do List Application   **2024**

- Built a feature-rich task management app with local storage, drag-and-drop functionality, and priority-based sorting for enhanced usability
- Implemented CRUD operations for seamless task creation, editing, and deletion.

Client Website for Branding & Advertising Services (Freelance Project)   **Mar 2025**

- Developed a custom website for a client offering branding, social media management, advertising video production, logo design, and web design services.
- Project is temporarily on hold due to client's budget constraints, pending domain and hosting setup
